7.5 mil polyethylene tape 3" x 60 yds.  
16 rolls/carton

### Hay Sleeves

#### SPECIFICATIONS

##### Hay Sleeves Sizes

5' x 6'	30 sleeves/box
5 1/2' x 5 1/2'	25 sleeves/box
6' x 6'	25 sleeves/box

## Protect Your Investment

You spend a great deal of time and energy in the preparation of your crop and so you have a big investment to protect. Choosing the right crop packaging product may be the most critical decision you make in the baling process and it is one of the most important. By selecting a quality net or twine that suits your specific needs, you are wisely protecting your investment by eliminating the possibility of down time and crop loss. Remember, our business is the distribution of premium quality products for hay packaging. You can rely on our reputation and knowledge, and take comfort in knowing that they all carry a money-back guarantee.

## SISAL for Square or Round Bales

### Brazilian

Our Brazilian line represents premium-quality sisal twines by COSIBRA, Brazil's most experienced twine manufacturer.

**BRAZILIAN GREEN AND GOLD**

Brazil's extra-long and strong fibers ensure uniform knotless twines for both square and round bales. Each bale is fully treated to resist rodents and insects.

#### Features include:

- Extra-long fibers for consistent trouble-free baling, uniformity, and true length
- High tensile and knot strength
- Specially treated to resist rodents and insects
- Biodegradable

### SPECIFICATIONS

#### Square Bales

10,000 ft. approx. 325# tensile 40 lbs./bale  
9,000 ft. approx. 350# tensile 40 lbs./bale\*  
7,200 ft. approx. 425# tensile 40 lbs./bale

#### Round Bales

16,000 ft. approx. 180# tensile 40 lbs./bale

#### Silage Twine (Untreated)

16,000 ft. approx. 180# tensile 40 lbs./bale

\* We guarantee that this bale contains 9,000 ft. (40 lbs. Gr/39 lbs. Nt. Wt.) of Premium Brazilian Sisal Fibre twine and will tie 475-500 small square bales of crop (based upon a 14-in. x 18-in. x 36-in. small square bale).

## Polypropylene for Square or Round Bales

### Orangeline™ and Balebind™ Premium-grade fibrillated split-film twines

#### Features include:

- Reduced machine wear
- Withstands "drop shock"
- Contains special UV light inhibitors which allow it to withstand intense exposure over long periods
- Twine runs trouble-free in baler
- Always uniform consistency
- No tastes, smell, oil, or food value to attract rodents

### SPECIFICATIONS

#### Square Bales

10,000 ft. - BT 190# knot strength  
9,600 ft. - BT 170# knot strength  
9,000 ft. - BT 130# knot strength  
7,200 ft. - BT 170# knot strength  
6,500 ft. - BT 240# knot strength  
5,000 ft. - BT 380# knot strength  
4,000 ft. - BT 350# knot strength  
4,000 ft. - BT 450# knot strength

#### Round Bales

20,000 ft., 110# - tensile strength  
20,000 ft., 130# - tensile strength  
20,000 ft., 150# - tensile strength

#### Monofilament Twines

20,000 ft., 110# - tensile strength  
20,000 ft., 125# - tensile strength  
20,000 ft., 140# - tensile strength
